The first strategy I will share has to do with your finger placement on the screen. The best place to put your finger is right below the ball. This will maximize your visibility of the screen and help you better avoid obstacles. The next strategy I have for you is to never work your way up on the sides of the wells or the roof of the tunnel. If you get too far up the side you will end up running into an obstacle. Most openings in the blocks will be closer to the bottom of the screen. Staying at the bottom of the tunnel will also allow you to make quick movements to get to the left or right side of the tunnel. Using these two strategies will help you get a higher record score. What is The Highest Score Ever Scored in The Game Rolly Vortex? High Score!
