# Bartender 4 wow guide

Wow bartender 4 guide.

Hover a button, press key? Once you add Bartender into your addon folder you will want to login to the game and type /Bartender to bring up the Bartender menu. You can open the configuration with the Slash Commands (/bt4 ÅorÅ Å/bartender) or Å through the Bartender4 LDB plugin. As you can see there are many options available as aforementioned. You can access KeyBound by its slash command (/kb) or through the button in the BT4 config. I would go as far as saying Bartender is a requirement to play at your best potential but I don't want to start any wars between other players out there. It is by far one of the most useful addons I have ever downloaded and would strongly recommend it to anyone that plays the game. Please provide as many information as possible, including your client language, the exact version you are running, how to reproduce any errors, and a stack trace, if applicable. First picture are my 3 main bars where 90% of my hotkeys lie. I used Bartender to fully customize it but I used Masque/ButtonFacade to make the circles. There are quite a few bar addons out there but Bartender is one of the most well known ones and most supported. Feature Requests/Bug Tracker Please submit Bugs and/or Feature Requests using the Ticket System on the WoWace Project page or in the Bartender4 Forum Thread. From this menu you are allowed to configure up to 10 different hot bars, making them the rows and how they're configured, how many buttons are on each bar, the space between each bar... A: Currently, you can temporarily override the snapping by holding down the Shift Key while moving your bars, or uncheck the option in the popup when your bars are unlocked. Bartender4 is a full ActionBar replacement mod. Links WoWace Project: Bartender4 on WoWace Custom State Header: Info page on WoWace Forums: Bartender4 Forum Thread ButtonFacade: WoWace ButtonFacade Project Where are my keybindings? Facilities direct access key binding with key options to control the concealment of the default Blizzard illustration (may want to be displayed.) Frequently Asked Questions Q: How can I access the configuration? It is a little seen, considering that Blizzard recently eliminated many skills with 5.0.4, but you can see the designer and the different amount that seems to be the normal Blizzard interface. Q: How disable the bugs of the bars? A: Bartender4 buttons do not automatically inherit the Blizzard Bars Keychains (except Bar 1), you must use the new key to releasour your keys. You will have to click on the image to enlarge it. These are on the lower left side of my screen: As you can see with that image, you can customize your bars, however, you want it. That is practically everything you have to say about the bartender. And how do I go to new keys? It provides you with all the necessary features to fully customize the majority of the aspects of your action and related bars. Support for all Action Bars and all bars All bars are fully customizable (scale, alpha, fading, Å e ~ ) configuration very flexible and customizable show / hide driver based on macro conditions. Additional designer and paging configuration for the action bars. Page All bars based on the position or the custom status controller support modifier with the macro conditions options to hide specific elements of the buttons (macro text, fast access key, more could be Add to order) Masque / BoterFacade support! Binding of easy fast access keys using the of keys to control the hiding Å of the default Blizzard artwork (you may want it to be displayed.) FAQHOW Å Do you access the configuration? Now to give you an idea of how to look Å its beautiful interface with Bartender, take some pictures more.
